## **DENON PROFESSIONAL INTRODUCES DN-304SAM POWERED SPEAKER SYSTEM**

*Powered speaker system produces pro-grade sound in a compact footprint.*

Fort Lauderdale FL, USA — January 5, 2015. Denon Professional ([denonpro.com](http://denonpro.com)), today announced their compact high-performance powered speaker system, the DN-304SAM. Offering impressive wide-range, high-output sound from a trim, space-saving design, the DN-304SAM gives demanding users a versatile audio monitoring choice for all-day use in professional applications.

The DN-304SAM system is comprised of two acoustically-inert MDF speaker cabinets, each containing a 4-inch polypropylene-coated woofer and a 1-inch ferrofluid-cooled tweeter mounted to a proprietary waveguide. The Left speaker contains the system's stereo amplifier, rated at 20 dynamic watts per channel. The amplifier utilizes class A/B architecture providing exceptional clipping headroom compared to conventional powered speakers and contributes to the outstanding sound quality of the DN-304SAM. A 1/8-inch (3.5mm) stereo input jack lets users quickly connect auxiliary audio sources, while a headphone output allows private listening.

"With their compact design and powerful output, the DN-304SAM delivers a level of acoustic performance that is perfect for meeting rooms, educational settings, retail kiosks, and media production monitoring," said Costa Lakoumentas, Senior VP at Denon Professional. "These applications require performance far beyond what one can get from a conventional consumer speaker, and the DN-304SAM delivers."

### **Denon Professional DN-304SAM highlights:**

- High performance monitoring system (stereo)
- 4" polypropylene-coated woofers for tight, accurate bass
- 1" ferrofluid-cooled silk dome tweeters for detailed, intelligible high frequencies
- Proprietary wave guide for optimum sound coverage
- 20-watt-per-channel amplifier with Class A/B architecture
- Rear-ported bass reflex design for deep, extended low frequency response
- Rear-panel 1/4-inch (6.3mm) TRS balanced and RCA unbalanced inputs
- Front-panel 1/8-inch (3.5mm) stereo auxiliary input
- Front-panel 1/8-inch headphone jack
- Front-panel volume control

The DN-304SAM will be on display at the 2015 Consumer Electronics Show in Las Vegas, NV, January 6-9 at the Las Vegas Convention Center in Central Hall, Booth 11640. The DN-304SAM will be available in Spring 2015 for \$149.99. For more information visit [denonpro.com/CES2015](http://denonpro.com/CES2015).
